

Trans Europe Express

International Freight Forwarders

LIMITED

EASY PRICE GUIDE

Contact us with the information below and we will provide you with a prompt quotation.

1. **How is the cargo packed** ~ is it loose, in cartons, or on pallets ?

2. **What are the dimensions** of loose pieces, cartons or pallets ?

A Euro pallet is 1200mm long x 800mm wide.

A standard pallet is 48" long x 40" wide, or 1 metre x 1.2 metre.

3. **What is the weight** of the consignment in kilograms ?

4. **If palletised**, can pallets be double stacked?

5. **Who is paying the freight** (terms of shipment)?

6. **What is the frequency of shipment** - one off, weekly, monthly?

7. **Freight conversion rates.** Freight is charged on weight or cube.

whichever is the greater, 1000 kgs = 3 cubic metres.

To convert Inches to cubic metres, multiply L x W x H = cubic ins,

divide by 1728 = cubic ft, divide by 35.4 = cubic metres.

A box weighing 2000 kgs and measuring 9m³ would be charged @ 3000 kgs.

A box of 2000 kgs and 3m³ would be charged @ 2000 kgs.

1 x loading metre = 1850 kgs

8. **When requesting rates** to/from Europe, know the area code of the town;

to/from USA, know the zip code of the town.

9. **What is transit time** required-i.e when must goods be delivered ?

10. **When is cargo ready?**

- ALWAYS BOOK CARGO AS EARLY AS POSSIBLE
